

COUNTING MACHINE

Minicount

COLLISCHAN
WEIGHING TECHNOLOGY

The Minicount is an universal counting machine for all kinds and forms of tablets, capsules, dragées etc. without changing parts.

The construction is based on pharmaceutical conditions and is easy to clean, because all contact parts can be removed tool-free.

The Minicount is controlled by a new processor application and has a touch screen control panel.

The basic unit is made of stainless steel and has an integrated processor control, a supply hopper, a twin count head, a 2 track vibratory feeder, a discharge funnel and a transparent dust cover.

Output:
up to 1500 tablets
per minute,
the twin version
up to 3000 tablets
per minute

Optional equipment:
Adjustable container platform
Automatic container transportation system

Technical Data:
Electric: 230 V, 0,5 kW · Control: Touch Screen panel
Length: 800 mm · Width: 280 mm · Height: 700 mm

WEIGHING TECHNOLOGY

COUNTING MACHINE CHECK WEIGHER

COLLISCHAN
WEIGHING TECHNOLOGY

TC 8210

Tare-Gross Application

Every single container is weighed before and after filling. A star wheel transports the container over two load cells to check the tare and gross weight. Invalid containers are rejected.

- multi processor control
- 1000 program memory storage
- coloured touch screen display
- high-end weighing cells
- easy and quick changeable parts
- easy and quick integration in existing production lines

Output; up to 60 weight checks
per minute

Electric: 230 V, 50 Hz

Air pressure: 6 bar
